RENNIE'S BULBS

W^M RENNIE CO LIMITED
TORONTO, MONTREAL, WINNIPEG, VANCOUVER.

Rennie's Annual Catalogue of FLOWER BULBS FOR FALL PLANTING

TO BLOOM IN THE HOUSE THIS WINTER
OR IN THE GARDEN NEXT SPRING

TIME OF PLANTING.—To the beginner we would particularly emphasize the fact that **NOW** and not **SPRING-TIME** is the time to plant all kinds of spring flowering bulbs. The larger part of the bulbs offered in this catalogue reach us from Holland early in September, and the sooner they are planted after that the greater will be the measure of success; therefore **ORDER EARLY**.

WHEN SHIPMENTS CAN BE MADE.—The general line of bulbs will be ready for shipment in September. A few kinds (chiefly Roots and Lilies) are not ready for shipment before November, as they are not matured enough to take up before that time. Therefore please note that all general orders will be shipped as soon as received in September, and the balance will be forwarded as early in November as possible.

BULBS BY MAIL OR EXPRESS.—All bulbs herein quoted will be sent to any post office in Canada, prepaid, when ordered at printed prices, except where noted. Postage to Newfoundland—15 cents per lb., or fraction thereof, must accompany all orders, otherwise it will be deducted.

ORDERS.—All orders are filled in rotation as received. We would advise early orders to ensure their being filled complete, as later in the season some varieties become exhausted, when we must reserve the privilege of supplying another sort as near the color as possible, but shall always substitute an equal if not better variety than ordered.

REMITTANCE.—All orders must be accompanied with the cash for full amount of order, which may be sent by Registered Letter, P.O. Order, Postal Note or Express Order.

ADDRESSES.—Please be careful and write your Name, Post Office and Province plainly, that there may be no disappointment by orders being incorrectly sent.

RENNIE'S JEWEL COLLECTION FOR HOUSE CULTURE

12 ELEGANT FLOWERING BULBS FOR 50c.

This offer is made especially to encourage new beginners to try a few bulbs in the house for winter blooming. We send 12 different and beautiful sorts, all suitable for winter blooming, labelled, for only 50c., postpaid to any address. Is this not cheap enough? Order it for your children and let them see what lovely flowers they can have in mid-winter. Do not fail to try and get your friends to do the same. Bulbs will be of our selection, extra fine in every respect.

RENNIE'S CEMETERY COLLECTION ALL HARDY FLOWERING BULBS

We frequently have call for a collection of Bulbs suitable for planting on a grave, such as will live for a number of years without any particular care and produce a profusion of flowers every spring. To meet this demand we have made up the very fine assortment of varieties mentioned below, and offer the collection of 100 First Size Bulbs for only \$1.00, postpaid.

- 6 Hyacinths, pure white.
- 12 Double Tulips, white.
- 12 Poet's Narcissus, fragrant.
- 2 Lilium Candidum, white.

50c. and \$1.00 Surprise Collections

MORE GOOD THINGS FOR FIFTY CENTS AND ONE DOLLAR THAN YOU CAN GET IN ANY OTHER WAY.

On and after November 10th we shall send out our Surprise Collections of Bulbs from the surplus stock on hand. Customers ordering these will receive many times the value of the bulbs at catalogue prices. These collections will be entirely of our own selection from kinds of which we have a surplus. No collection will be made up for less than Fifty Cents, and from that up to any amount the purchaser may desire. They will be sent free by mail. All "Surprise" Collections ordered previous to November 10th will be booked and shipped then, but we can continue sending them up to December. In ordering, state whether wanted for house or garden culture.

Remember we Prepay the Carriage on all Bulbs Ordered from this Catalogue, except where noted.

GROWING HYACINTHS OUTDOORS

The bulbs may be planted any time from October to December—the earlier the better. They succeed in any good, well-drained garden soil. Set the bulbs so that the tops will be 3 or 4 inches below the surface and 6 to 10 inches apart. Before very severe weather comes on, cover the beds with straw, leaves or manure to protect them from the frost, but care should be taken that this covering is not too thick, as the bulbs are as likely to be injured by being kept too warm as by freezing; the mulching should be removed in March.

RENNIE'S CHOICE DUTCH HYACINTHS

Good sized flowering bulbs, 15 centimeters (5½ in. and upwards in circumference), much larger than the Mixed Hyacinth bulbs usually sent out. They are well adapted for open-ground planting, in mixed borders and informal beds, and on account of their low price are also extensively forced for winter blooming and cutting. The list offered below includes nearly every shade of red, white, blue, yellow, etc.

RENNIE'S SPECIAL NAMED HYACINTHS

For Bedding or Forcing

These are Second Size Named Hyacinths, and are larger sized bulbs than usually put in our unnamed separate colors. They will produce fine spikes of bloom, and the different sorts as offered, being of one shade of color, render them of value for bedding in designs, enabling one to obtain the exact color effect desired. For growing in pots indoors they are second only to our Best Named Hyacinths offered on page 3.

RENNIE'S PLANT FOOD

A Fertilizer made expressly for plants grown in the house, garden or conservatory. Free from odors, clean to handle, and, in addition to keeping the plants free from vermin, promotes in them a strong, healthy growth, and early and abundant blossoms. Soluble in water. Packages, each 20c. and 30c., by mail 30c. and 45c.

STERLINGWORTH PLANT FOOD TABLETS.—A new Scientific, Odorless, Concentrated Fertilizer for Potted Plants. Takes the place of liquid manure. It starts the plants at once into healthy and vigorous growth, and makes them grow and bloom luxuriantly. These tablets drive troublesome insects and worms from the soil. Trial size box, sufficient for 10 house plants for 3 months, 12c. postpaid; large size box, sufficient for 35 plants for 3 months, 25c. postpaid.

EARLY ROMAN HYACINTHS

(FRENCH).—The flowers, while smaller than those of the ordinary Dutch Hyacinth, are produced in much greater abundance, each bulb producing several graceful spikes; their delicious perfume, earliness and profusion of bloom have made Roman Hyacinths exceedingly popular. They are not considered hardy enough for open ground.

DUTCH ROMAN HYACINTHS

ALSO CALLED MINIATURE HYACINTHS.

72. These little Hyacinths are excellent for growing in pots, pans or boxes; they bloom very freely, often producing 3 or 4 spikes. They are equally desirable for culture outdoors; they should be planted closer together than the "Dutch Hyacinths." Culture is the same as recommended for the Roman Hyacinths, and they come into bloom after the Roman Hyacinths are exhausted. The flowers are pink, white and light blue in various shades. 5c. each, 40c. doz., per 100 \$2.50, Postpaid.

GRAPE HYACINTHS

73. (Muscari Botryoides).—One of the prettiest of early spring flowering bulbs, growing about 6 inches high and throwing up numerous spikes of clear blue or white flowers, which resemble a miniature bunch of grapes. They are perfectly hardy, and once planted take care of themselves; in clumps or lines they are very effective. 8 to 12 bulbs in a 6-inch pan make a pretty plant for window decoration, blooming at Easter.

Mixed Colors.—4 for 10c., doz. 20c., per 100 \$1.00, Postpaid.

WHITE ROMAN HYACINTH
(For Pot Culture)

HOW TO GROW HYACINTHS SUCCESSFULLY IN GLASSES AND POTS

POT CULTURE.—Plantings may be made at any time from September to December, though October is the best time. A light, rich soil with a mixture of well rotted cow or sheep manure is most suitable. Use a four or five inch pot, and have the top of the bulb just above the surface. After potting, give a good watering and set away in a cool cellar or outhouse and cover over with coal ashes or some litter until thoroughly rooted; they may then be brought as wanted for a succession of flowers into a moderately warm, light room.

CULTURE IN GLASSES.—When it is desired to grow Hyacinths in water, they should be placed so that the base of the bulb merely touches the water. The glasses should then be set in a cool, dark closet, or in the cellar, until filled with roots, when they may be brought into the light. Give as much fresh air as possible without letting the plants stand in a draught, and as nearly as possible at a temperature of sixty degrees.

TULIPS FOR BEDS

These assortments are made for the benefit of those who hardly know what varieties to combine in design bedding. The collections are of the best solid, self-colored varieties, which work well together and flower at the same time.

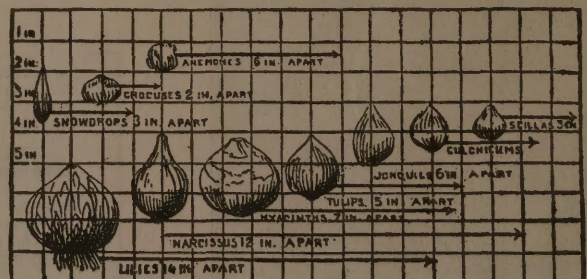

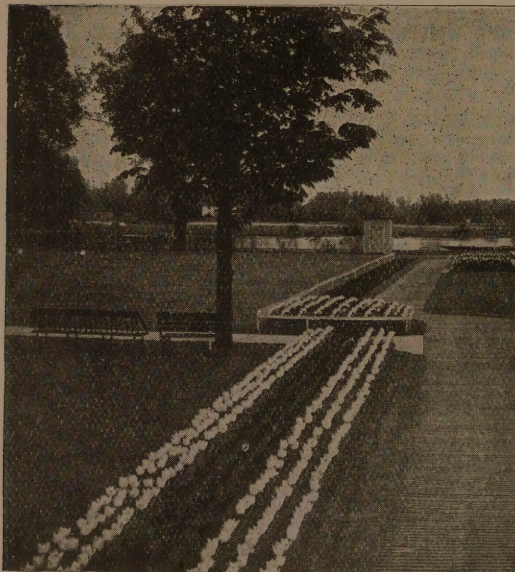

All are fine large-flowering sorts, certain to give thorough satisfaction, and to produce the most brilliant effects.

74. **SINGLE TULIPS—FOUR COLORS.**—For a round bed 15 feet in circumference (5 feet across), 200 bulbs are required, planted 4 in. apart. 50 *Pottebakker*, Scarlet; 50 *Chrysolora*, Yellow; 50 *Cottage Maid*, Pink; 50 *Pottebakker*, White. Price \$3.00, by Express, not prepaid.

75. **SINGLE TULIPS—TWO COLORS.**—Round bed, divided into four quarters, 15 feet in circumference (5 feet across), 200 bulbs, planted 4 inches apart. 100 *Yellow Prince*, Yellow; 100 *Artus*, Scarlet. Price \$2.50, by Express, not prepaid.

76. **SINGLE TULIPS—THREE COLORS.**—For a round bed 15 feet in circumference (5 feet across), 200 bulbs, planted 4 inches apart. 65 *Belle Alliance*, Scarlet; 65 *La Reine*, White; 70 *Chrysolora*, Yellow. Price \$3.00, by Express, not prepaid.

77. **DOUBLE TULIPS—TWO COLORS.**—For a bed 5 feet long by 4 feet across, 144 bulbs, planted 4 inches apart (four quarters). 72 *La Candeur*, Double White; 72 *Rex Rubrorum*, Double Scarlet. Price \$2.20, by Express, not prepaid.

SCALE OF DEPTH AND DISTANCES FOR PLANTING BULBS.

SINGLE EARLY TULIPS

Tulips are universal favorites, and their ease of culture, combined with beauty of form and gorgeous coloring, renders them the most popular bulbs grown for spring bedding, and for winter flowering in the greenhouse and window garden they are incomparable.

For cultural directions see our pamphlet, "How to Grow Bulbs," free with every order.

The letters A, B, C, preceding the varieties, indicate their earliness of bloom. The A's flower together and are the earliest, B next, etc. The average height in inches is also given to aid in arranging flower beds. ORDER BY NUMBER.

When Tulips priced by the 100 are wanted sent by mail, add 30c. for Postage on each 100.

DOUBLE TULIP

We Endeavor to Supply First-Class Bulbs only and will not change Our Quality to compete with Low Prices.

DOUBLE EARLY TULIPS

While not equal to the single in brilliancy the double varieties last much longer in bloom. The early varieties, such as Murillo, Imperator Rubrorum and the Tournesoll, are excellent for forcing. The later sorts will not bear forcing, but are very effective in beds or borders. A combination or solid bed of the pure white and bright scarlet varieties, La Candeur and Rex Rubrorum, is especially effective. The average height of each in inches is prefixed, and the letters A, B, C, preceding the varieties, indicate their earliness of bloom.

GIANT DARWIN TULIPS

The new Darwin Tulips are late flowering Garden Tulips, and produce very large flowers of symmetrical form on tall, strong stems, 2 feet high. They by far surpass in colors and brilliancy anything before known in Tulips. They include almost every conceivable color and shade, from the daintiest blue to the darkest violet, from soft rose to the most brilliant red, and from light brown to what is believed to be the darkest black in the floral world.

THE GIANT DARWIN TULIPS ARE RECOGNIZED AS THE ARISTOCRATS OF TULIPDOM.

Parrot or Dragon Tulips

A flower more bizarre, fantastic, or gorgeous, would be hard to find. A bed or clump of them always attracts much attention. They are six, seven and eight inches across, with petals toothed, horned, twisted and waved, now loosely incurved, now spread flatly out like a star. Some are yellow, some are crimson, or again dashed, flaked or feathered with green, gold or scarlet. They grow ten inches in height, and bloom just after the double Tulips.

PARROT OR DRAGON TULIP.

LATE FLOWERING SINGLE GARDEN TULIPS

Quite distinct from the early flowering sorts, coming into bloom two to three weeks later than the early flowering types, and extending the Tulip season over a period of four weeks or more. On account of their extreme hardiness, they are specially adapted for the permanent hardy flower border. For bedding they are superb, and as cut flowers are preferred to the early type.

Narcissus or Daffodils

These flowers, so well adapted to the hardy border, are much admired by all friends of hardy flowers, and are found most useful for planting among hardy perennials and shrubbery as well as in solid beds and borders. They are equally valuable for growing in pots and pans for house decoration, as they are easily grown and make a splendid show. **Culture.**—Same as for Hyacinths. The Polyanthus varieties are not hardy enough for our climate and should be grown in the house only.

Fern Ball

JAPANESE FERN BALLS

(Ready in December).

These balls consist of Fern Roots about the size of a pencil, woven outside and around a ball of moss. These roots produce beautiful sprays of ferns from eyes or buds at nearly every inch of their length. Thus the whole surface of the ball soon becomes covered with fern sprays. They may be suspended in any part of the room or grown on a stand or table. **Price,** in dormant state, largest size, 8 inches in diameter, each 40c.; second size, 5 inches in diameter, each 25c.

GIANT PAPER-WHITE NARCISSUS

Two Magnificent Bulbs for Growing in Water

CHINESE SACRED LILY

ALSO CALLED "JOSS FLOWER."

Chinese plants are as curious as Chinese people, and these wonderful bulbs, which will bloom in a bowl of water filled with pebbles, never fail to interest the whole household. While they may be grown in earth, they are most successfully cultivated, as by the Chinese, in water. They flower in clusters, with large waxy white blooms with yellow centre; very fragrant. Slits one-fourth inch deep up and down the sides of the bulbs near the top will aid the weak shoots to burst through the tough outer skin.

181. **LARGE SELECTED BULBS**.—Each 10c., doz. \$1.10, postpaid; doz. 75c., original baskets containing 30 bulbs, \$1.50 per basket, by express or freight at purchaser's expense.

GIANT "PAPER-WHITE" NARCISSUS

182. These beautiful, graceful Narcissus will flower as early as Christmas, and are the best of all the European bulbs for growing in water. The flower is whiter than that of the Chinese Sacred Lily. We offer mammoth bulbs of these, imported especially which are equally good for growing in earth. Grown in bowls of water like the Chinese Lilies it should flower in from six to eight weeks. Planted in earth, use 6 or 8 bulbs in an 8-inch pan, which started in September will flower by Christmas. In planting from week to week, a succession of bloom can be had from early December to March. Each 6c., postpaid; doz. 60c.; if by post add 10c. per doz.

We Can Supply Double Daffodils Mixed, for Massing in the Garden, at \$1.50 per 100, \$12.00 per 1,000.

ALLIUM NEAPOLITANUM

ALLIUM NEAPOLITANUM

183. This is one of the most beautiful bulbous plants for conservatory, house or window-garden. It is of easiest culture, and can be grown by anyone. The flowers are star-shaped, and are produced in large, loosely spreading umbels, on stems 20 inches high. Plant four bulbs in a 5-inch pot as early as received in the fall, and they will immediately commence to grow, flowering in January and continuing in bloom for several weeks. 5 for 10c., doz. 20c., 100 \$1.20, postpaid.

AMARYLLIS

Bulbs bearing flowers of rare beauty, with large drooping bell-shaped lily-like bloom, varying in color from the richest crimson to pure white, striped with crimson or scarlet.

184. *Amaryllis Johnsonii* (or *Barbadoes Lily*).—The old favorite, and almost too well known to need description. The immense trumpet-shaped flowers, which measure from 6 to 8 inches across, are borne on strong, fleshy flower-stems and are of rich velvety crimson, each petal having a broad white stripe, contrasting beautifully with deep red color. Large bulbs, 30c. each, postpaid.

185. *Amaryllis Formosissima* (Jacobean Lily).—Dark scarlet, free blooming, splendid for pot culture, and can be grown in water like Hyacinths; flowers in summer if kept dry in winter. Each 10c., \$1.00 per dozen, postpaid.

ANEMONES

Beautiful and showy spring-flowering bulbs, producing brilliantly colored flowers, valuable either for outdoor planting or house culture. If planted indoors they should be left in same pots year after year, as they give best results when treated in this manner.

186. Choice Double Anemones.—Mixed colors. 3 for 10c., doz. 30c.

187. Choice Single, Mixed.—4 for 10c., doz. 20c.

CHIONODOXA LUCILLAE

188. *Glory of the Snow*.—This variety is one of the most beautiful of the Spring flowering bulbs, and should be planted in quantities. They flower with the Snowdrops, and last a long time in perfection. Will produce an abundance of brilliant sky-blue, white centred flowers. 3 for 10c., doz. 25c.

CROWN IMPERIALS

189. An old and well-known spring-blooming plant, with clusters of pendant bell-shaped flowers surmounted by a tuft of green leaves: it is very effective in mixed borders and centres of beds. They succeed well in any soil. Each 15c., per doz. \$1.50

NEW HALF-DWARF CALLA

NEW GOLDEN YELLOW CALLA

CALLA LILIES

These are grand winter-blooming pot plants of the easiest culture. They bloom profusely with ordinary care, and should be in every home.

BLACK CALLA

210. *Arum Sanctum*.—The large wavy leaves, which are of a rich green color, veined light green, resemble those of *Calla Ethiopica*. The plant produces one large sweet-scented flower, raised on a slender but vigorous stalk of brown red, shading to a green at the upper end. The flower is about 14 inches long and from 7 to 9 inches across, of a brilliant dark purple and green underneath, somewhat wavy at the borders and curled at the smaller end; the spike rising from the centre of the flower is about ten inches long, velvet-like and quite black. Each.....20c.

SPOTTED LEAF CALLA

211. *Richardia Alba Maculata*.—Ready in November. This magnificent Calla gives excellent satisfaction; leaves deep, rich green, exquisitely ornamented with pure white marks; flowers pearly white with glossy black centre; very useful as a pot plant, easily grown. Each.....15c.

YELLOW CALLA

(Ready in November.)

212. *Richardia Hastata*.—An exceedingly rare bulb; frequently catalogued but seldom obtainable. We have ours in stock. It is similar to the Spotted Leaf Calla in growth, excepting that the flowers are of a light yellow color. Each.....40c.

HALF-DWARF CALLA

213. *NEW HALF-DWARF*.—Of half-dwarf compact habit, glossy foliage, large snow-white flowers; the old Calla is a very shy bloomer, but this is always in bloom, summer or winter. Can be grown in the open ground in summer and lifted in the fall, or it may be kept in pots all the time. A great improvement on the old Calla. Each.....35c.

NEW GOLDEN YELLOW CALLA

214. (*Richardia Elliottiana*).—A grand acquisition; the finest Yellow Calla we have ever seen; large deep golden yellow, flowers often 4 to 5 inches across at the mouth. Habit of growth and foliage like the old favorite White Calla, excepting the leaves of *Elliottiana* are spotted with white rendering it an unusually showy pot plant. Each.....50c.

MAMMOTH CUBAN LILY

LITTLE GEM CALLA

214½. *Nana Compacta*.—Of dwarf habit; rarely exceeds 12 inches in height; flowers of a good size, and snowy white in color; most desirable plant for house culture. Each.....20c.

WHITE CALLA

215. *Lily of the Nile*.—A well-known plant of easy culture, and in winter is one of our best window plants. Flowers pure white. Mammoth bulbs, each 30c.; first size bulbs, each 15c., doz. \$1.50; 2nd size bulbs, each 12c., doz.....\$1.25

BLEEDING HEART

216. *Dielytra Spectabilis*.—Ready in November. One of our most ornamental spring-flowering plants, with handsome peony-like foliage, long drooping racemes of pink and white heart-shaped flowers. Strong roots, each 15c., 4 for.....50c.

MAMMOTH CUBAN LILY

217. *Scilla Clusi*.—These are magnificent winter bloomers, producing enormous clusters of star-shaped blue flowers, often 3 feet in circumference. They are among the most striking flowers we have in our list. Bulbs very large and strong and sure to bloom. A charming variety for growing in pots; unlike the other sorts, this variety is not entirely hardy. First size bulbs, each.....15c.

GIANT CYCLAMEN

218. These are amongst the most beautiful and interesting winter and spring flowering bulbs. The flowers are very large, perfectly modelled and well borne, of short, stout stems; the foliage is also highly ornamental, and consequently even when the plant is not in bloom it is always a valuable and attractive addition to any window, garden or greenhouse. No trouble need be expended in their culture, the best results being easily obtained by keeping the plants in a cool, light, airy place. We offer a fine assortment of colors, including rose, white and red. Fine bulbs, each 20c., doz.....\$2.00

GIANT CYCLAMEN

FREESIAS

NEW FREESIA—"PURITY"

219. This grand new variety is a type of pure-white Freesia that surpasses in size, floriferousness and purity of color all other Freesias. They should be planted early for best results. A half-dozen bulbs planted in ordinary soil in a pot or box will produce a profusion of delicious scented, pure white flowers. They are of the easiest culture, and are sure to grow and bloom. We offer one size only, first size bulbs. 6c. each, 12 for 60c., 100 \$3.50, postpaid.

FREESIAS

220. *Refracta Alba*.—The flowers of this plant can hardly be said to form a spike, as the flowering stem after growing to a certain height runs horizontally, and the flowers are produced perpendicularly on this horizontal stem. As many as nine blossoms, each from two to three inches in length, are produced; they are deliciously fragrant, last a long time, and are very valuable for cutting, as the unopened buds expand freely when placed in water. Mammoth size bulbs, 3 for 10c., doz. 30c., per 100 \$1.50. Second size, 4 for 10c., doz. 20c., 100 \$1.25, postpaid.

SCARLET FREESIA

221. (*Anomatheca Cruenta*).—Ready in November. Resembles Freesia in bulb, foliage and habit. Flowers bright scarlet with deep blotches. An admirable pot plant, companion to the Freesia, it does not flower quite so early. 3 for 10c., doz. 30c.

GLADIOLUS

222. *The Bride* (*Colvilli Alba*).—Ready in November. Beautiful early-flowering Gladiolus, blooming in June and July, invaluable for cut flowers. Grown in 5 or 6 inch pots, 3 or 5 in a pot. It may be had in bloom in April and May. Although termed hardy, they are all the better for a slight covering of hay or straw put on about December 1st. Snow White. 3 for 10c., doz. 30c., 100 \$1.30, postpaid.

223. *Blushing Bride*.—Very fine for forcing. Flowers are pink at throat, shading to white towards the edge of petals. 3 for 10c., doz. 30c., 100 \$1.30, postpaid.

GLOXINIAS

224. *GIANT*.—Ready in November. Surpasses any in size and delicate shades. This is one of the choicest bulbs for pot culture; flowers trumpet-shaped, with the most beautiful tints and markings. Plant in a light soil and keep in a warm place. Dry carefully after blooming and store in moss in a dry place. White, spotted, blue, scarlet. Each 15c., 4 for 50c., 25 for \$2.50, 100 \$9.00.

IXIAS

225. The *Ixia* is a beautiful little winter-flowering bulb with slender, low, graceful spikes of bloom. The colors are rich, varied and beautiful, the centre always differing in color from the other parts of the flower, so that the blossoms expanding in the sun's rays present a picture of gorgeous beauty. Fine mixed varieties, various colors, 3 for 5c., doz. 15c., 100 \$1.00, postpaid.

FRITILLARIA MELEAGRIS

226. *Snake's Head or Guinea Hen Flower*.—A beautiful group of spring flowering plants, bearing bell-shaped flowers of various colors—yellow, white, black, purple, striped and splashed and checkered in the most curious way. Being perfectly hardy they are beautiful objects in the mixed flower border, where they can remain undisturbed for several years. They should be in a rich soil and in a dry locality. As pot plants they are very desirable; should be grown in a cool place. Mixed varieties, 3 for 10c., doz. 25c., \$1.50 per 100.

DOG'S TOOTH VIOLETS

227. (*Erythronium Grandiflorum*).—Pretty Cyclamen-like flowers of lovely shades; foliage spotted with brown; hardy, desirable for outdoor planting; white, purple and rose mixed. Each 5c., doz. 40c.

SPANISH IRIS

Lily of the Valley

BERMUDA BUTTERCUP OXALIS

IRIS (Flowering Flag)

229. **Japanese (Kaempferi).**—Ready in October. The magnificence of these splendid new Irises surpasses description; in beauty, size of flower, richness of coloring, they are grand. The flowers are of enormous size, averaging from 6 to 8 inches across, and of indescribable and charming hues and colors, varying like watered silk in the sunlight; the prevailing colors being white, crimson, rose, lavender, violet and blue. Attains greatest perfection if grown in moist soil. Each 20c., doz. \$2.00

230. **Spanish (Hispanica).**—Beautiful shades of violet, yellow, blue, and white; well adapted for pot culture, blooming in winter. Mixed colors, 4 for 10c., doz. 20c., 100 \$1.00, postpaid.

231. **English (Anglica).**—Large handsome flowers, with rich purple, blue and lilac colors predominating. Hardy. Mixed colors, 3 for 10c., doz. 30c., 100 \$1.50, postpaid.

232. **German.**—Ready in October. Perfectly hardy, thrives anywhere. Colors ranging richest yellows, intense purples, delicate blues, soft mauves, beautiful claret reds, whites, primroses and bronzes of every shade. Mixed colors, each 5c., doz. 50c.

LILY OF THE VALLEY

Convallaria Majalis.—Ready December 1st. It is extensively grown for forcing in the winter and early spring months, producing tender stems set with tiny bells of snowy whiteness, diffusing a delicate odor. It may be planted indoors in baskets of moss, boxes and vases; plant in November and December.

233. **LILY OF THE VALLEY PIPS.**—Berlin single crown, pips pure white, large; finest for forcing. 3 for 10c., doz. 25c., 100 \$1.50, postpaid.

234. **LILY OF THE VALLEY CLUMPS.**—Extra large clumps, for out-of-door planting, containing a number of strong roots. Each 35c., per doz. \$3.60. Clumps can be sent by express, purchaser paying charges.

BERMUDA "BUTTERCUP OXALIS"

235. A beautiful winter-flowering pot plant, of the easiest culture. Excellent for hanging baskets, and is a strong, luxuriant grower. The foliage is exceedingly attractive, and the flowers are of the purest bright buttercup yellow. Properly treated will flower six weeks from time bulbs are planted. 3 for 10c., 12 for 35c.

LILIES

TRUE BERMUDA EASTER LILY—(Lilium Harrisii)

(Ready in September.)

THE FINEST WINTER FLOWERING LILY—THE EASIEST TO GROW.—Pure pearly white, deliciously fragrant, and a remarkable profusion of bloom, characterize this charming and celebrated Easter Lily. A profusion of bloom may be had throughout the winter and spring, if a number are planted and "brought in" at different times. To have a succession of bloom at least a dozen bulbs should be used. Place in sunny position, and the lilies will flower in a temperature of from 60 to 70 degrees in about eight weeks.

236. **Mammoth Bulbs** (9 to 11 inches in circumference).—Each 35c., 3 for \$1.00, doz. \$3.50 postpaid.

237. **First Size Bulbs** (7 to 9 inches in circumference).—Each bulb produces 8 to 10 flowers. Each 20c., doz. \$2.00 postpaid.

FORMOSA EASTER LILY (Lilium Formosum).—Ready in October. This variety of Easter Lily blooms shortly after Christmas or a few weeks later than the Harrisii or Bermuda Easter Lily. Plants of sturdy growth, about 3 feet high, and produce beautiful snow-white trumpet-shaped lilies 6 to 8 inches long in abundance.

238. **Mammoth Bulbs** (9 to 10 inches).—Each 20c., doz. \$2.00

239. **First Size Bulbs** (7 to 9 inches).—Each 15c., doz. \$1.50

JAPAN EASTER LILY (L. Longiflorum Giganteum).—Ready in October. This is the correct variety to plant for flowering at Easter. It is later than either the above, and being of stocky growth is unusually free from disease, bearing snow-white trumpet-shaped flowers of rare fragrance.

240. **Mammoth Bulbs** (9 to 10 inches in circumference).—Each 20c., doz. \$2.00 postpaid.

241. **First Size Bulbs** (7 to 9 inches in circumference).—Each 15c., doz. \$1.50 postpaid.

242. **LILIUM CANDIDUM.**—Ready in September. The old-fashioned, pure white garden Lily, also known as Annunciation Lily. One of the hardiest. Flowers snow-white, with heavy yellow stamens and sweet fragrance. Bears from 3 to 20 blossoms. This variety must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early blooming. Customers will do well to plant 12 or more for a permanent bed. Each 10c., doz. \$1.00, postpaid.

HARDY JAPANESE LILIES

(Ready in November.)

243. **LILIUM AURATUM.**—Ivory white with crimson spots. Extra size bulbs, each 20c., doz. \$1.75, postpaid.

244. **LILIUM SPECIOSUM ALBUM.**—Pure white with recurved petals, fragrant. Each 25c., doz. \$1.75, postpaid.

245. **LILIUM SPECIOSUM RUBRUM.**—White with a deep rosy band on each petal, fragrant. Each 20c., doz. \$1.75, postpaid.

PEONIES

(Ready in October.)

These magnificent hardy plants closely rival the rose in perfume, brilliancy of color and perfection of bloom. Being perfectly hardy, they require little or no attention, succeeding in almost any kind of soil, but producing larger and finer blooms when planted in a deep, rich and slightly damp loam. Set of 7 for \$1.80, or 3 for.....\$1.00

TREE PEONIES

254. PEONY MOUTON.—These Japanese Tree Peonies differ from the herbaceous varieties in their growth, which is in the form of a dwarf shrub; they are equally free-flowering, and commence blooming about three weeks earlier than the double herbaceous sorts, and while also perfectly hardy, they are benefited by slight protection through the winter. Strong plants, each.....\$1.00

DOUBLE RANUNCULUS

SPIREA (Ready in November.)

262. Peach Blossom.—A very dainty pink, very new; one of the handsomest Spireas we know of. Each 30c, 5 for \$1.25, postpaid.
263. Queen Alexandra.—Pink. A beautiful new variety, entirely distinct from anything in this line, the color being a soft pink. A strong grower, free-flowering, and forces almost as easy as the other sorts. When grown indoors it should be kept cool when flowers are developing, this being necessary to bring out the delicate coloring. Each 30c, 5 for \$1.25 postpaid, doz. \$3.00 by express.
264. Mrs. Gladstone.—The best Spirea; very large flowering, pure white, bearing 25 to 40 flower stalks at one time. Each 25c, postpaid 35c; doz. \$2.75, by express at buyer's expense.
265. Japonica.—Perfectly hardy, with numerous clouded panicles of feathery white flowers. It is largely grown in pots and splendid for cutting or table ornaments. Compact clumps, each 20c, postpaid; per doz. \$1.20, by express at buyer's expense.

WINTER ACONITE

266. Eranthus Hyemalis.—The Winter Aconite is a pretty little yellow flower, valuable for its early blooming and contrasting well with the Snowdrops, which are the only flowers to keep it company in the early season in which it blooms. 4 for 10c, 20c per doz, \$1.25 per 100.

Egyptian or Perennial Tree Onion

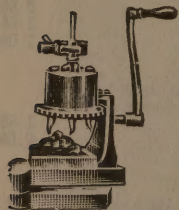

A true novelty in the Onion family, being entirely hardy. The young sets grow on top like top onions. These should be planted in the Fall. When once set out, without the slightest protection, they will come up year after year. For sweetness and tenderness they are unsurpassed. Earlier than any other variety of onions. Price, quart 25c., 4 quarts 90c., postpaid.

WILD RICE SEED

Directions for Sowing.—Put the rice on coarse cotton or linen bags, and sink them in water for 24 hours. Sow in water which is from 6 inches to 5 feet deep, in soft mud bottom, and in places where there are but few weeds. It is useless sowing these seeds except in a mud bottom, or on low marshy places which are covered with water the year round. In running water sow as much out of the current as possible. New crop seed just harvested, lb. 30c., postpaid; 10 lbs., by express. \$2.00

FRUIT PICKER

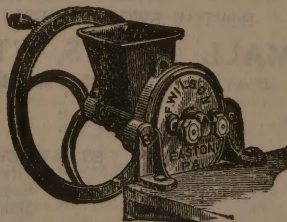

The STAR BONE CUTTER (for Green Bones).—Is the most compact and easiest to work yet introduced. It has 3 knives, which can be easily taken out and sharpened, and by means of its automatic action, it is bound to cut while any bone is left in the hopper. Those who know the value of green bone for poultry should not be without one of these. Weight 35 lbs. Price, without stand.....\$6.00

FRUIT PICKER

When the mouth of the picker is closed, the fruit is drawn into the bag, which makes the picking the same as if done by hand. The choicest fruit which hangs out the farthest can be safely and easily secured while standing on the ground. Saves climbing and the use of ladders, and a child can use it. Simple, light and durable. Each 75c., by mail postpaid.....90c.

HYACINTH GLASSES

These Glasses are made specially for Hyacinth culture, and are charming ornaments for the window. Hyacinths can be grown in glasses without the slightest trouble, and always with good results. Price, either style, in various colors, 20c. each; \$2.00 per doz. (Glasses cannot be sent by mail.)
